Profile

An Information Systems (MIS) graduate from King Abdulaziz University with hands-on experience in data analysis, dashboard development, and KPI reporting. Skilled in Power BI and Excel, with a strong ability to transform data into actionable insights that support decision-making and improve organizational performance. Experienced in handling large datasets, automating processes, and developing performance tracking systems. Passionate about continuous learning and leveraging data-driven solutions to enhance efficiency and drive business success.

Education

Bachelor's Degree in Management Information Systems (MIS) 08/2021 – 01/2026
King Abdulaziz University | GPA: 4.61 / 5.0

Professional Experience

Data Analyst Intern – Catrion (Saudi Airlines Catering), August 2025 – February 2026

- Analyzed and validated operational data for 1,000+ employees, ensuring accuracy and completeness across all datasets.
- Built interactive dashboards using Excel and Power BI to visualize KPIs, completion rates, and performance trends.
- Generated structured analytical reports to support management decisions on operational coverage and compliance.
- Automated recurring reporting processes using Excel, reducing manual effort and improving data reliability.
- Identified data discrepancies and operational gaps through analysis, recommending targeted process improvements.
- Monitored performance indicators continuously and delivered timely status updates to operations leadership.
- Maintained clean, well-organized datasets and documentation to support audit and reporting requirements.

Projects

Training Performance & Compliance Dashboard 09/2025
• Built performance tracking dashboards to monitor completion rates and highlight operational gaps.
• Provided actionable insights to improve compliance and training coverage.

Training Operations Tracking Tool 08/2025
• Developed an Excel-based tracking tool to monitor training records, progress, and KPI indicators
• Improved data organization and supported more accurate and efficient reporting
